

QUALITY RATING SYSTEM FOR ADULT LEARNING PROVIDERS

About the project

"QUALTRACK - Quality rating system for Adult Learning Providers" is a project funded by the European Commission through Erasmus+ programme. The project deals with the topic of quality in adult learning and it is implemented by a partnership of five organizations from respective EU countries: Association of Adult Education Institutions in the Czech Republic, CEIPES (Italy), Adult Education Institution Dante (Croatia), Asset Technology (Greece) and Association of Adult Education Institutions in Slovak Republic.

The develop and the use of the new model of rating and Quality Assurance will be the first step in improving the relevance and efficacy of the VET provision with regard to labour market relevant qualification and companies' needs.

Project Activities

QualTrack aims to propose a new quality rating system which will comprehensively validate criteria of educational institutions and consequently allow:

- a) develop the quality elements of the educational institution,
- b) promote the educational institution itself on the basis of a quality label and
- c) give clear information to customers about price and quality ratio.

Expected results

The main project results are:

- Specification on Quality rating model for adult learning institutions.
- Methodology and methodology related documents
- Pilot preparation - Training materials setup
- Pilot rollout and evaluations - Report from the quality rating system pilot
- On - line tools

Qualtrack Kick-off Meeting

On the 15th and 16th of November partners from Czech Republic (Associations for Adult Education), Italy (CEIPES), Croatia (Institution Dante), Greece (Asset) and the Slovak Republic met for the first time in Rijeka, Croatia, for the project “QUALTRACK- Quality rating system for Adult Learning Providers”.

The first day of the partners’ meeting was dedicated to presenting partners and the adult education system in different countries. What emerges from the partnership is the lack of institutionalization and quality assurance policies. It appears more as a free market based on supply and demand. The topic is sure of public interest and a quality rating system is an important tool for the realization of social development goals.

The second-day Partners discussed online tools to be used, quality assurance and monitoring of the project, and the next steps. The consortium had the chance to work but also share cultural values and enjoy free time. The next online meeting it’s already set to keep on track!
