

QUALITY RATING SYSTEM FOR ADULT LEARNING PROVIDERS

Quality Rating Model

The new quality rating model for adult learning institutions will be created as synthesis of all project activities. The common quality rating model includes expert calls with local stakeholders in each country with perception of adult education and possibility of nationwide application of quality rules.

As an outcome two results will be produced: a) **On-line quality rating model** b) **Recommendations for the national authorities on steps and actions towards a successful implementation of common quality rating system** in adult learning environment.

Each partner country will have an Adult Education Specialist and Expert involved in the project realization team. Together with Partner Manager and other project team members they will participate on the Quality rating system specification as well as on the Recommendations for national authorities.

2nd Transnational Meeting

On the 3rd and 4th of April, QUALTRACK partners were hosted by the Adult Institution Association in Bratislava, Slovakia.

This is the second meeting of the Erasmus+ project QUALTRACK aiming at producing a quality rating system for adult education institutions. The system at a European level appears to be fragmented and there's no unified quality rating method.

In the two days meeting, partners discussed tasks and roles for the next steps for the finalization of the quality rating model, as well as the methodology and the preparation for the piloting. Quality indicators have been defined in the promotion of the project and the next international meeting has been set.

NEXT STEPS

- Getting ready for the methodology and the preparation for the pilot implementation
- Organisation of the 3rd Transnational meeting in Palermo (October 2023)
